## About Me

I develop full-stack web applications that bring together smooth user experiences and dependable functionality. I have practical experience working on user-focused interfaces, and complete project builds from start to finish. I'm committed to writing clean, organized work and continually improving my skills to deliver scalable, user-centered digital solutions.

## WORK EXPERIENCE

### Dream Home Real Estate Website

**Role Title:** Full-Stack website Developer

**Time :** October 12 – November 26 (2025)
